LEGEND

COVID-19 TRANSMISSION (red dotted line)

SOCIETY _____ (solid black line)

- 1** Optimised and comprehensive application of existing tools including:
- Platforms to improve our understanding of the virus and its spread.
 - Detection and monitoring systems to track community spread.
 - Physical and social distancing measures to prevent transmission.
 - Communications for community engagement and support.
 - Rapid response capacity for disease resurgence.
 - Hospital and primary care systems for surge capacity and to sustain routine services.
 - Platforms for rapid introduction of new tools and strategies.

- 2** Successful release requires optimised:
- Testing and surveillance.
 - Rapid response capacity.
 - Community engagement to support the response.
 - Platform for rapid application of new tools (diagnostics, digital tools, therapeutics, prophylaxis, vaccine).

WHOLE-OF-SOCIETY RESPONSE

REQUIRED FOR ALL STAGES
