This feedback will help ensure our services, processes and procedures better meet the needs of those we interact with and that issues raised are addressed in the most appropriate manner. It will also help develop our services and interactions by reinforcing what we are doing right and providing positive feedback to staff, as well as looking at how we can improve.</p>
Purpose
<p>The purpose of this policy is to give context and direction to Burnet’s external stakeholder’s complaint handling procedures. Under this policy we:</p> <p>Recognise, promote and protect the individual’s or external organisation’s right to comment and complain about their dealings with Burnet;</p> <p>Recognise and uphold the human rights of workers in their operations and supply chains and to treat them with utmost dignity and respect.</p> <p>Provide an efficient, fair and accessible framework for resolving complaints;</p> <p>Identify how we will communicate about the complaints handling process;</p> <p>Set standards for dealing with complaints;</p> <p>Support the monitoring of complaints in an endeavour to improve the quality of the services Burnet provides; and</p> <p>The procedure associated with this policy ensures that potential adverse human rights impacts are properly addressed by the Burnet Institute and that adequate remediation is provided to complainants for any actual adverse human rights impacts that are caused or contributed to by the Burnet Institute’s business activities and operations.</p>

Policy statement/overview

1. Our commitment

This policy will be readily accessible on Burnet's website. All complaints will be handled quickly, discretely, fairly, effectively and courteously. Burnet is committed to ensuring:

- the rights of the complainant are protected;
- that requirements for filing a complaint take into consideration the needs of the most vulnerable and considers minority and disadvantaged stakeholders;
- the rights of the staff who receive complaints, or who may be the subject of a complaint; and
- the human rights of workers in its business operations and supply chains are upheld and that they are treated with utmost dignity and respect.

Burnet will ensure that stakeholders are aware of their right to complain by promoting these complaint handling procedures on the website via the external newsletter, annual report, partnership agreements and in appropriate forms and media that is easily understood by the communities where we work.

Burnet will provide information on how staff and volunteers are equipped to understand and implement the policy. Personnel directly involved in complaint handling are fully trained in all aspects of this policy and its implementation.

Understanding patterns of complaints empowers managers to improve service and prioritise resources for future planning. Burnet will analyse and monitor the complaints received and report these to the Board on a regular basis.

- All staff and external stakeholders will have easy access to Burnet's complaint handling policy and procedures.
- Where appropriate we will ensure that personnel working in communities we serve have all necessary training to encourage and handle inquiries, expressions of concern and making of complaints so as to take account of cultural and gender sensitivities and to ensure that cases involving children or sexual exploitation and abuse are appropriately handled.

2. Complaints record

It is important to record external stakeholder complaints in order to:

- Track progress of complaints
- Ensure accountability
- Identify and fix root causes
- Enable data analysis and management reporting.
- Enable continuous improvement and learning.

Burnet will identify and record all complaints. Data about external complaints will be electronically recorded at one centralised point to allow for the monitoring of complaint procedures, to analyse complaints, and to report to management on complaints to allow for service improvement.

The physical record of all complaints and responses to those complaints will be kept by the Chief of Staff in the Office of the Director to allow for accountability and audit as required.

In addition the register of complaints will be recorded in the Board reports and raised at the Burnet Executive to ensure issues raised that require implementation of policy or procedural changes are addressed at senior management level.

3. Response Standard:

Melbourne staff who receive a formal complaint from a stakeholder should immediately contact the Chief of Staff who will then deal with the issue in the most effective manner.

Complaints can be received in person or by letter, email, telephone or via social media or via the confidential and anonymous service of Integrity line (details below) Because such complaints can alert us to problems that need fixing we will accept them though clearly it may not be possible to provide a remedy to an individual.

Standards for response to a complaint:

We will acknowledge oral complaints immediately. For complaints received in person at the country office or field site by a staff member we will ensure the written record of the complaint contains all the information the complainant wishes to provide. This will be referred to the Country Representative who will also inform Chief Operating Officer and the Chief of Staff in Melbourne of the complaint.

We will acknowledge written complaints received by letter or email, within 3 working days at a minimum to acknowledge receipt of the complaint.

We will aim to resolve complaints as quickly as possible and within 30 days unless there are exceptional circumstances. If a complaint is not resolved within 30 days, we will inform the complainant of progress and keep them informed of progress every two weeks.

Where appropriate, we may utilise complaint/suggestion boxes for different stakeholders (e.g. child-friendly feedback mechanisms) or establish complaint committees involving representatives from partner organisations and members of communities we are serving.
